

04.02 Pallet bars

Highly robust and easy to use

- > For large-volume goods and high quantities
- > Ideal for promotions, e.g. in end cap position at the ends of shelving
- > Unobstructed access and simple removal

PALLET BAR TYPE 1
Height 820 mm, hot galvanised

Supplied without wooden pallet

PALLET BAR TYPE 2
Height 995 mm, plastic powder coating

Standard design

Round tubing frame with two sturdy central bars. Frame and support bracket are welded. Locking bar is angled on the upper tie bar. Retaining profiles for variable assembly on long or transverse side of the Euro pallet.

Finish: plastic powder-coated or hot galvanised.

Arrangement options

Pallet bars, individual

Pallet bars in a row, lengthways

Pallet bars in a row, sideways

04.02 Pallet bars

■ **Large-volume goods and high quantities** can be transported safely from the production location to the sales area. Ideal for promotions in end cap position at the ends of shelving. Unobstructed access and simple removal of goods are constant factors in success.

Easy to use

Just a few steps are needed to fit the bars. The retaining bars grip underneath the central bar of the pallet.

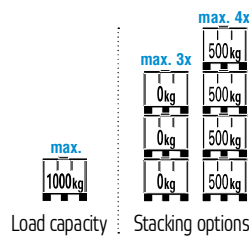

Safe stacking

The pallet blocks latch securely into the angled locking bars.

Maximum load capacity / stacking
